Titan Plus

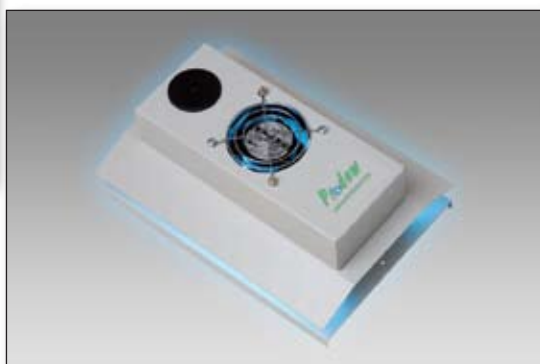

Air Purification and Ethylene Removal

Titan Plus 2000 Wall Mounted or Free Standing

Titan Plus 8500 Ceiling Mounted

Titan Plus 4500 Ceiling Mounted

Titan Plus 3000 Wall Mounted or Free Standing

Ideal for produce, meat, and seafood storage space, wineries, offices, food processing and beverage bottling facilities

Effectively removes ethylene gas from the air

Removes pollutants and kills 99.99% of airborne pathogens from the air passing through the device, a significant benefit compared to other air filtering devices where pathogens are only trapped within the equipment

Why Titan Plus?

Easy maintenance

NO FILTERS TO REPLACE, UV BULB REPLACED ONCE A YEAR (AS OPPOSED TO NUMEROUS BULBS IN CONVENTIONAL AIR PURIFIERS).

4-Power Purification

WE UTILIZE 4 TECHNOLOGIES WHILE OTHER LEADING CATALYTIC AIR PURIFICATION SYSTEMS UTILIZE ONLY UV LIGHT AND TITANIUM DIOXIDE.

4 Models Available

DIFFERENT SIZE AND MOUNTING OPTIONS FOR INDIVIDUAL APPLICATIONS AND NEEDS.

THE CATALYTIC AIR PURIFICATION SYSTEM UTILIZES THE POWER OF 4 TECHNOLOGIES:

Ionization – removes airborne pollutants, compounds and metals, thereby providing air that is **purified, revitalized, balanced** and **beneficial** to health and well being

Ozone – strong oxidizing agent, extremely effective **antiseptic** and **disinfectant**; the small amount of ozone that is produced is contained within the equipment

Ultraviolet Light – kills **bacteria** and other **micro-organisms**

Titanium Dioxide – **sterilizer, disinfectant, germicide, antiseptic** and **sanitizer** – effectively destroys micro-organisms, e.g., bacteria, viruses, microbes, germs, and even fungi, mold and spores
